Subject: Anti-Mandate Protests Update February 15, 2022 1500 hours

LMD:

No change at 176 border crossing. The situation is stable with numbers during the day reaching a high of approx. 50. One suspicious vehicle did try and infiltrate into a line of trucks headed to the border. This vehicle was turned around at the RCMP check point at 8 and 176. CIRG AMP GSB has a robust sustainment plan for presence at 176 border crossing through into next week.

ND:

The North District convoy of approx. 20-30 vehicles that departed south from Prince George along Hwy 97 this morning made it through 100 mile house around 1530. They are well behind their planned time line to arrive in Surrey by 1800. The bulk of convoy consists of pick ups, SUV's and three large transport rigs. The estimated time line puts the convoy into Chilliwack well after midnight. It is believed they may overnight close to that location.

The North convoy still has plans to meet up in Kamloops with another convoy at approximately sometime. However; the convoy appears to have limited communications which is hampering their efforts during the drive and in organising with people in the LMD.

The current destination for the combined convoy is unknown, and appear unorganized. There is significant online chatter and conversation, however, there is not concrete plan at this point. Chat groups indicate that the convoy is urged NOT to travel to 176th.
